**Clear Hurricane Helene Trauma to Promote Resilience and Facilitate Recovery**

Self-Paced  
LCCNC,  
pdc@lccnc.org

*When a natural disaster occurs, it traumatizes not only the people who directly experienced the event, but also first responders, everyone who pitches in to help, and even the whole community. Traumatic shock triggers the nervous system's fight/flight/freeze reflex causing exaggerated, irrational emotional (and physical) reactions, and inhibits the ability to think rationally and be resourceful. Even worse, anything that was in the environment at the time the trauma occurred can get associated with that memory. Later on, these associations can trigger this original reflex reaction, (like a body flashback). Untreated, cumulative trauma can cause burn out and even PTSD symptoms.*

*Join us for this community healing webinar and clear Hurricane Helene trauma together. Participants will learn the Natural Bio-Destressing meridian tapping technique for activating your body's natural calming reflex and releasing traumatic reactions. Daily use of this technique will result in increased resilience, optimism, and sense of well-being.*

*LCCNC supports the people of Western North Carolina affected by Hurricane Helene. In an effort to mobilize a response and equipping those clinicians serving that region, we are offering a free disaster response webinar. We care deeply about the mental health and well-being of the families, friends, and communities impacted by this disaster and want to offer our support as an Association.*

*Donations will be accepted towards the American Red Cross Relief Fund.*

**The HBLU Approach to Healing Ancestral Trauma**

Self-Paced  
LCCNC,  
pdc@lccnc.org

*Every therapist has experienced that moment when they realize their client is suffering depression, anxiety, and PTSD symptoms caused by ancestral/generational trauma and they just don't know what to do to help free them. Because ancestral trauma is a universal experience, therapists need to know how it imprints in the unconscious mind and body and how it is structured so they can treat it effectively. In this webinar, the presenter will describe three common causes of ancestral trauma and share her published original research using Healing from the Body Level Up™ (HBLUTM) methodology to clear these patterns in just a few sessions. Dr. Swack will also do live healing with volunteers or the whole group.??*
